Introduction

Did you hear about WeRateDogs?

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. The account was started in 2015 by college student **Matt Nelson**.

WeRateDogs asks people to send photos of their dogs, then tweets selected photos rating and humorous comment. Dogs are rated on a scale of one to ten, but are invariably given ratings over the maximum, such as "13/10". Popular Posts are re-posted on Instagram and Facebook. In 2017, Nelson started a spin-off Twitter account, Thoughts of Dog.

WeRateDogs has successfully used the account to raise money for the American Society for the Prevention of Cruelty to Animals (ASPCA), as well as individual GoFundMe campaigns. [[wikipedia](#)]

In this report I Will communicate the insights and displays the visualizations that produced from wrangled data(Cleand)

Types with high ratings
